WORK EXPERIENCE

Oct 2022 - present

Freelance Programmer
Self Employed

- Developed and implemented custom software solutions for clients, resulting in increased efficiency and cost savings
- Successfully managed multiple projects simultaneously, meeting all deadlines and delivering high-quality work
- Collaborated with team members and clients to identify and troubleshoot software issues, resulting in timely and effective resolutions
- Maintained and updated code libraries, ensuring consistency and reliability across projects
- Utilized strong problem-solving skills to create innovative solutions for complex programming challenges.

EDUCATION

Aug 2019 - Jul 2023

Information Technology
Isabela Colleges, Cauayan City

PERSONAL STATEMENT

As a recent graduate in web development, I bring a solid foundation in modern programming languages, frameworks, and design principles. My academic projects have honed my skills in front-end and back-end development, UI/UX design, and responsive web development. I am eager to apply my knowledge and creativity to contribute effectively to a dynamic team, while continuously learning and adapting to new technologies.

SKILLS

- Software development: Experience with software development methodologies and frameworks.
- Web development: Familiarity with HTML, CSS, JavaScript for front-end web development.
- Systems analysis: Ability to analyze complex systems and identify areas for improvement or optimization.
- Database management: Knowledge of database design, SQL queries, and data manipulation.
- Web Design and Development
